# OLEKSII NAIDIUK

Hello! I am a back-end / web scraping developer based in Kiev, Ukraine. I have about 2 years experience in developing parsers, APIs and automation scripts for marketing. Actually I am just trying to make life easier for people around me and my own using technologies. I will be glad to help you too!

### My Stack:

Python, Zenoposter

Selenium, aiohttp, requests, BeautifulSoup4, XPATH, REGEX, asyncio, multithreading, multiprocessing, unittest

### RESTful API development:

Fastapi, SQLAlchemy, Sqlite, Postgresql, Redis

### OS and tools

Ubuntu, Windows, bash, cmd

### CI/CD

docker/docker-compose, git, github

### Idioms that i stick to

SOLID, DRY, KISS, YAGNI, TDD

As a hobby I keep a telegram channel where I save all the materials that helped me in the development and which will potentially help others

<https://t.me/pyscraping>

## WORK EXPERIENCE

-  September. 2022 - Now **Automation developer**  
**SoftSvit, Kyiv**  
Developed automated emailing framework with:  
Python Requests multithreading multiprocessing REGEX, BeautifulSoup4
